#### Independent Auditors' Report to the Members

To.

The Members of D. S. Kulkarni Developers Ltd.

Report on the audit of the standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of D. S. Kulkarni Developers Ltd. which comprise the

- a) Balance Sheet as at the 31st March 2017
- b) Statement of Profit and Loss (including Other Comprehensive Income) for the year ended on that date
- c) Statement of Changes in Equity for the year ended on that date,
- d) Statement of Cash Flows for the year ended on that date, and
- e) Notes to the financial statements including a summary of significant accounting policies and other explanatory information.

# Responsibility of the Management and those charged with governance for the standalone financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including Other Comprehensive Income), change in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.

This responsibility also includes

- maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities;
- b) selection and application of appropriate implementation and maintenance of accounting policies;
- c) making judgments and estimates that are reasonable and prudent; and
- d) design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### Auditors' Responsibility for the audit of the financial statements

Our responsibility is to express an opinion on these standalone Ind As financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

Our objectives are:

- a) to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement whether due to fraud or error
- b) to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of the users taken on the basis of these financial statements.

As part of the audit in accordance with SAs, we exercised professional judgment and maintained professional skepticism throughout the audit. We also:

- i identified and assessed the risks of material misstatement of the financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- iii evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv considered the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, we concluded that a material uncertainty does exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. Hence, we drew attention in our auditor's report to the related disclosures in the financial statements. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern or vice versa.
- v evaluated the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- vi communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013 ("the Act"). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

#### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India,

- a) in the case of the standalone balance sheet, of the state of affairs of the Company as at 31st March, 2017
- b) in the case of the standalone statement of profit & loss, of the loss of the Company for the year ended on that date.
- in the case of the standalone statement of changes in equity, of the changes in equity of the Company for the year ended on that date.
- d) in the case of the standalone cash flow statement, of the cash flows of the Company for the year ended on that date.

#### Material uncertainty related to "going concern"

We invite attention to Annexure A to our report which expatiates the facts and circumstances that indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Having regard to the totality of the facts and circumstances stated in the said Annexure, it is our considered opinion that the Company will be able to continue as a going concern only if it is able to raise funds for payment of staff salaries, payment of statutory liabilities and for servicing its debts on the due date and if it is able to comply with the provisions of the Real Estate Regulation Act, 2016. Our opinion about the financial statements for the year under review is not modified in respect of this matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters listed in Annexure B to this report have been communicated to the management and discussed with the management.

#### Report on other legal and regulatory requirements

- a) As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of Section 143(11) of the Companies Act, 2013, we enclose, on the basis of our opinion, our examination of the relevant records and according to the information and explanation given to us, in the "Annexure C" a statement on the matters specified in Paragraphs 3 and 4 of the said Order.
- b) As required by Section 143(3) of the Act, we report that
  - i We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - ii In our opinion, proper books of account as required by law have been kept by the Company, so far as appears from our examination of those books;
  - iii The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account
  - iv In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.
  - v On the basis of the written representations received from the directors as on 31st March, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
  - vi With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure D"; and
  - vii With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - a) the Company and its promoters have pending litigations which could impact its financial position. These contingent liabilities have been quantified, to the extent possible in Note 26.
    - b) the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses
    - c) there has been no delay on the part of the Company in transferring amounts, required to be transferred, to the Investor Education and Protection Fund
    - d) the company has provided requisite disclosures in its financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016 and these are in accordance with the books of accounts maintained by the company.

# Independent Auditors' Report of Even Date to the Members of D. S. Kulkarni Developers Ltd. on standalone Ind AS financial statements Annexure A - Material uncertainty related to "going concern"

The Directors' Responsibility Statement in the Board's Report states that the accounts have been prepared on a "going concern" basis. However, whether the Company is a "going concern" as at the balance sheet date is a question of opinion which must be answered having regard to the totality of the facts and circumstances of the case. Accordingly, we state below the facts and circumstances which may have a material impact on this issue.

#### A Financial facts & circumstances

Default in repayment of instalments of loans obtained from banks & financial institutions and in payment of interest on such loans:

During the year under review, the Company has been generally unable to service the loans obtained from banks & financial institutions in accordance with the contractual terms contained in the sanction letters issued by such banks & financial institutions i.e. the Company has been generally unable to repay instalments and pay interest on the due date. We wrote a letter to each bank / financial institution in order to obtain information about delay in payment of interest & repayment of loan instalment, status of the account as at the balance sheet date & the overdue instalments / interest as at the balance sheet date. The amount of overdue instalments / interest as stated in the **Annexure C** to the statutory audit report is derived from the replies we received from the banks / financial institutions, if any, or, in the absence of such replies, from the information available in the Company's records.

2 Default in repayment of fixed deposits obtained from the public and in payment of interest thereon:

The Company has defaulted in repayment of fixed deposits and in payment of interest thereon. Please refer Para (v) of **Annexure C** to our statutory audit report for details.

3 Default in payment of statutory dues on account of tax deducted at source, self-assessment tax, Maharashtra Value-added tax, service tax, employees' provident fund dues etc.:

The Company filed its return of income under the Income Tax Act for Assessment Year 2016-17 (FY 2015-16) on 30/11/2016. As per the said return, an amount of Rs.1251.68 lacs is payable by the Company on account of self-assessment tax and interest. However, till the date of this report the Company has paid Rs.45 lacs only and the balance Rs.1206.68 lacs is still unpaid. The Income Tax Department has treated the said return as invalid u/s 139(9) of the Income-tax Act, 1961, on the ground that self-assessment tax has not been paid and has asked the Company to show cause why prosecution should not be initiated for such default.

The Company has not paid as required by law the tax deducted at source in the year under review under various sections of the Income Tax Act, 1961.

The Company has also not paid as required by law the amounts payable on account of service tax, employees' provident fund dues, ESIC dues, employees' profession tax, Maharashtra Value added tax, and contribution to gratuity fund managed by LIC.

The details of these statutory liabilities are stated in Annexure C to our statutory audit report.

4 Dishonour of cheques issued by the Company and consequent criminal cases against the Company under Section 138 of the Negotiable Instruments Act

We are informed that during the year under review, 1,220 cheques issued by the Company were returned unpaid for want of adequate balance in the Company's accounts. The aggregate amount of such cheques is Rs.70.14 crores. Out of the 1220 cases of dishonour, complaints u/s 138, NIA 1938 were filed in 51 cases of which the aggregate amount is Rs.11.41 crores. The Company subsequently paid Rs.21.04 crores against some dishonoured cheques before or after filing of complaints.

#### 5 Rejection of dividend proposed by the Board of Directors for FY 2015-16 at the Company's Annual General Meeting:

When the Company's financial statements for FY 2015-16 were finalized in May 2016, the Board of Directors recommended to the Annual General Meeting to be held in September 2016 that a dividend of Re. 1.25 per share be paid to the holders of the Company's equity shares. The total outflow on account of dividend and additional tax thereon would have been Rs.388.17 lacs. However, the resolution at the Company's Annual General Meeting held on 29/09/2016 was not passed and the proposed dividend was not declared.

#### 6 Delay in payment of salaries to staff:

As at the date of this report, the Company has been unable to pay some of its staff for four months. The unpaid employee remuneration as at the balance sheet date is Rs.3.68 crores. Out of this amount Rs. 1.17 crores has been paid by the date of this report.

#### B Other facts & circumstances

#### 7 Resignation of staff and delay in appointment of replacements:

According to the statistics provided by the HR Department, the Company had 514 employees on 01/04/2016. During the FY 2016-17, 259 employees resigned whereas only 54 new employees joined the Company. Consequently, the Company had 309 employees as at 31/03/2017.

#### 8 Progress of incomplete construction projects

We visited all the major construction sites in and around Pune and found that the construction activity had slowed down considerably.

#### 9 Rating by credit rating agency

The credit rating of the Company has been down-graded by CARE from BBB+ to D in respect of long-term bank facilities and to C Negative in respect of Fixed Deposit Programme and to C Negative in respect of non-convertible debentures as per their communications dated 22/03/2017

#### 10 Pending litigations

The Company and its promoters face and are likely to face litigations on account of dishonour of cheques and defaults in payment of statutory dues, fixed deposits, bank loans and generally dues payable to suppliers.

### Independent Auditors' Report of Even Date to the Members of D. S. Kulkarni Developers Ltd.

## on standalone Ind AS financial statements Annexure B - Key Audit Matters

The following key audit matters are emphasized in order to interpret these financial statements

#### 1 Compliance with the provisions of the Real Estate Regulation Act, 2016

Government of India has enacted the Real Estate (Regulation and Development) Act 2016 and all the sections of the Act came into force with effect from May 1, 2017. Under this Act, Government of Maharashtra has established Maharashtra Real Estate Regulatory Authority (MahaRERA), vide Notification No. 23 dated 8th March 2017, for regulation and promotion of real estate sector in the State of Maharashtra. Consequently, Government of Maharashtra also promulgated the Maharashtra Real Estate (Regulation and Development) (Registration of Real Estate Projects, Registration of Real Estate Agents, Rates of Interest and Disclosures on Website) Rules, 2017 and other Rules. The last date for registration of on-going projects under Real Estate Regulation Act is 31st July 2017. These changes in the regulatory environment applicable to real estate development companies are so radical that no such company can continue in business without complying with the new regulations.

#### 2 Commitments for DSK Dream City Project & Other Projects

The Company has made commitments aggregating to Rs.191.94 crores in respect of its on-going projects. The Company's success will depend upon its ability to raise funds for meeting these commitments.

#### 3 Advances given to unrelated parties

The Company has given advances aggregating to Rs. 198.73 crores to 26 unrelated parties for the purpose of construction & development of real estate projects. However, by the balance sheet date the said parties had not raised invoices for the work performed by them.

#### 4 Default committed by DSK Global Education & Research Ltd. (DSKGER)

The Company is surety for the loan advanced by Central Bank of India (CBI) to DSKGER. The said guarantee was given when DSKGER. was a subsidiary of the Company and it continued even after DSKGER ceased to be a subsidiary. The said contingent liability appears in Note 26 to the financial statements. On 12/04/2017 CBI has issued a notice to DSKGER u/s 13(2) of the Securitisation & Reconstruction of Financial Assets & Enforcement of Security Interest Act, 2002, for payment of the amount outstanding on 11/04/2017 i.e Rs.8200.39 lacs within 60 days from the date of receipt of notice.

#### 5 Possible contractual liability

The Company is unable to reasonably quantify the possible liability that may arise due to non-performance of the terms of contracts between the Company and its customers & suppliers.

## Independent Auditors' Report to the Members of D. S. Kulkarni Developers Ltd.

on standalone Ind AS financial statements

#### Annexure C Referred to in Paragraph a) under the heading "Report on other legal and regulatory requirements" of Our Report of Even Date

#### (i) Fixed Assets

- (a) The company has maintained proper records showing full particulars including quantitative details and situation of fixed assets during the financial year under review.
- (b) The management has not physically verified all the fixed assets during the year but there is a regular programme of verification which is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification during the financial year under review.
- (c) The title deeds of immovable properties owned by the Company are held in the name of the company

#### (ii)Inventories

The management has conducted physical verification of inventories at reasonable intervals during the year. The discrepancies noticed on physical verification of inventory as compared to the book records were not material and have been properly dealt with in the books of account.

#### (iii) Loans granted to related parties

(a) The Company has granted loans, secured or unsecured, to companies, firms or other parties covered in the register maintained u/s 189 of the Act. The number of parties and amount involved in the transactions is as follows: -

Number of Parties

Amount of loans given

Balance (₹ Lacs)

31-Mar-17 11,092.86

31-Mar-16

Two (Two)

- 10,544.06 (b) The rate of interest and other terms and conditions of loans, secured or unsecured, granted by the Company, are not, prima facie, prejudicial to the interest of the Company;
- (c) In respect of the loans, secured or unsecured, given by the Company, the terms of repayments of the principal amount and the payments of the interest have not been stipulated. Hence no repayment can be said to be overdue. However, the Company has made provision for loans whose recovery may be doubtful.

#### (iv) Compliance with S. 185 & S. 186

The Company has made investments, granted loans, offered guarantee and security in compliance with the provisions of Section 185 & Section 186 of CA, 2013. The Company has obtained an opinion from a professional stating that provisions of Section 185 of the Companies Act 2013 are not attarcted in the matter of giving a guarantee to the bank which has advanced a loan to one of the related parties viz. D.S. Kulkarni & Co.

#### (v) Deposits

As at 31st March 2017 the Company had outstanding deposits of Rs.15.06 crores from 1,642 depositors. During the FY 2016-17 and up to the date of this report, 450 post-dated cheques aggregating to Rs.10.38 crores issued by the Company for repayment of deposits were dishonoured. Against these dishonoured cheques, the Company subsequently paid Rs.5.48 crores. The ECS for payment of interest have not been issued generally since November 2016. However, no Order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal in this regard.

#### (vi) Cost Records

The Company has maintained cost records as required by the Companies (Cost Record & Audit) Rules, 2014 prescribed by the Central Government u/s 148(1) of the Act. The Company has also appointed a cost auditor. The last date for completion of cost audit is 28/09/2017

#### (vii) Payment of statutory dues

(a) There have been instances of delay in depositing with the appropriate authorities undisputed statutory dues including Provident Fund, Employees' State Insurance, TDS, Income-tax, Sales-tax, Wealth Tax, Service tax, Customs Duty, Excise Duty, cess and other material statutory dues applicable to it.

	The details regarding payment of statutory dues are as follows:	₹Lacs	₹ Lacs

Independent Auditors' Report to the Members of D. S. Kulkarni Developers Ltd.

on standalone financial statements

Annexure D Referred to in Paragraph (b)(vi) under the heading "Report on other legal and regulatory requirements" of Our Report of Even Date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of D. S. Kulkarni Developers Ltd. ("the Company") as of 31st March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI').

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and its operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (c) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were generally operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. However, by the end of the year the efficacy of the IFC system was adversely affected because of resignation of staff responsible for operating the system and delay in appointment of suitable replacements.

#### 2.05 Basis of preparation

- i For all periods up to and including the year ended 31st March 2016, the Company prepared its financial statements in accordance with the accounting standards notified under Section 133 of the Companies Act, 2013, read together with Rule 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These standalone financial statements of the Company for the year ended 31st March 2017 are the first financial statements the Company has to prepare in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.
- ii Accordingly, the Company has prepared financial statements which comply in all material respects with the relevant provisions of the Act and with the Ind AS applicable for periods ending on 31st March 2017, together with the comparative period data as at and for the year ended 31st March 2016. In preparing these financial statements, the Company's opening balance sheet has been prepared as at 1st April 2015 which is the Company's date of transition to Ind AS.
- iii These financial statements have been presented in accordance with the provisions of Division II of Schedule III to the Companies Act, 2013.
- iv These financial statements are prepared under the historical cost convention, unless required / permitted otherwise by applicable Ind AS.
- v As required by Section 128(1) of the Act, these financial statements are prepared in accordance with the accrual method of accounting with revenues recognized and expenses accounted on their accrual including provisions / adjustments for committed obligations and amounts determined as payable or receivable during the period.
- vi The preparation of financial statements in conformity with Indian AS requires the management to make judgements, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the end of the reporting periods and the reported amounts of revenues and expenses for the reporting periods. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised.
- vii The standalone financial statements are presented in INR and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated.

#### 2.06 Ind AS 1 - Presentation of Financial Statements:

- i The identification of an entity's significant accounting policies is an important aspect of the financial statements. Ind AS 1.117 requires disclosure of the significant accounting policies comprising
  - a the measurement basis (or bases) used in preparing the financial statements and
  - b the other accounting policies used that are relevant to an understanding of the financial statements.

31-Mar-17

As required by Ind AS 101 the Company has used the same accounting policies in its opening Ind AS balance sheet and throughout all periods presented in its first Ind AS financial statements (the first annual financial statements in which an entity adopts Ind AS by an exploit and unreserved statement of compliance with Ind AS). Those accounting policies comply with each Ind AS effective at the end of its first Ind AS reporting period, except as specified in Ind AS 101 (e.g., when the exceptions in Ind AS 101 prohibit retrospective application or the Company avails itself of one of Ind AS 101's voluntary exemptions). The Company does not apply different versions of Ind AS that were effective at earlier dates. The Company may apply a new Ind AS that is not yet mandatory if that Ind AS permits early application.

# iii Current versus non-current classification - Ind AS 1.60

- a The Company presents assets and liabilities in the balance sheet based on current / noncurrent classification.
- b An asset is treated as current when it is:
  - ► Expected to be realised or intended to be sold or consumed in normal operating cycle
  - ► Held primarily for the purpose of trading
  - ► Expected to be realised within twelve months after the reporting period, except work-in-progress of real estate development projects.
  - ► Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- c All other assets are classified as non-current.
- d A liability is treated as current when:
  - ▶ It is expected to be settled in normal operating cycle
  - ► It is held primarily for the purpose of trading
  - It is due to be settled within twelve months after the reporting period, or
  - ► There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period
- e The Company classifies all other liabilities as non-current.
- f Deferred tax assets and liabilities are classified as non-current assets and liabilities.
- g The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified 3-5 years as its operating cycle.

#### 2.07 Ind AS 101 - First time Adoption of Indian Accounting Standards

Ind AS 101 requires an entity to explain how an entity transitioned from Indian GAAP to Ind AS and how the transition is reported in the balance sheet, statement of profit and loss and cash flows which are prepared in accordance with Ind ASs. The principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1st April 2015 and the financial statements as at and for the year ended 31st March 2016 are stated in Notes 41, 42 & 43.

Ind AS 101 also requires that the carrying amount of goodwill as per Indian GAAP must be used in the opening Ind AS balance sheet (apart from adjustments for goodwill impairment and recognition or derecognition of intangible assets). The Company's assets do not include any goodwill.

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has considered the issues arising out of the following exemptions in preparing its first Ind AS compliant financial statements.:

Accounting for share-based payment transactions of issue of equity instruments (Paras D2 & D3 of Ind AS 101): Ind AS 102 requires disclosure of the fair value of equity instruments at the measurement date and accounting for liabilities arising from such transactions. Paras D2 & D3 permit the Company not to make such disclosures in respect of share-based transactions that were settled before the date of transition to Ind ASs. The Company has not entered into share-based transactions in the past.

- ii Insurance contracts (Para D4 of Ind AS 101): Ind AS 104 applies to contracts of insurance. The Company does not issue insurance contracts.
- iii Deemed cost (Para D5 to D8B of Ind AS 101): Ind AS 16 & 38 require the Company to carry items of property, plant & equipment (PPE) and intangible assets at fair value, if the Company has opted for the revaluation model for measurement of the carrying value of PPE & intangible assets. However, Para D5 to D8B permit treatment of carrying value as per past revaluation as deemed cost of PPE and intangible assets on the date of transition to Ind ASs. The Company has not revalued its PPE or intangible assets in the past and has opted for the cost model for measurement of the carrying value of PPE & intangible assets.
  - As required by Ind AS 101, the Company has determined whether impairment indicators or indicator of reversal of any prior impairment exist for items of PPE or intangible assets with definite or indefinite life. Consequently, the Company has performed impairment tests and determined the recoverable amount and impairment or impairment reversals.
- iv Leases (Para D9 & D9AA): Ind AS 17 requires the Company to determine whether an arrangement is, or contains, a lease, particularly when a lease includes both land and building elements. Para D9 & 9AA permit such determination with effect from the date of transition to Ind ASs. The Company has not entered into leases which require such determination.
- v Cumulative translation differences (Para D12 & D13 of Ind AS 101): Ind AS 21 requires the Company to recognize some translation differences in other comprehensive income and accumulate these in a separate component of equity. However, Para D12 & D13 exempt the Company from compliance with these requirements for cumulative translation differences that existed at the date of transition to Ind ASs. The Company has availed of this exemption.
- vi Investment in subsidiaries, joint ventures & associates (Para D14 & D15 of Ind As 101): Ind AS 27 requires the Company to account, in its separate financial statements, for its investment in subsidiaries, joint ventures & associates at cost or in accordance with Ind AS 109. If the Company opts for measurement of the carrying value of such investments at cost in accordance with Ind AS 27, Para D14 & D15 permit the carrying value of such investments in the separate opening Ind AS Balance Sheet to be the cost determined as per Ind AS 27 or the deemed cost. The deemed cost is the fair value at the date of transition to Ind ASs or the carrying value as per Indian GAAP at the date of transition. The Company has opted to account for its investment in subsidiaries, joint ventures & associates at cost in accordance with Ind AS 27.
- vii Compound financial instruments (Para D18 of Ind AS 101): Ind AS 32 requires the Company to split a compound financial instrument at inception into separate liability and equity components. If the liability component is no longer outstanding, retrospective application of Ind AS 32 involves separating two portions of equity. The first portion is in retained earnings and represents the cumulative interest accreted on the liability component. The other portion represents the original equity component. However, Para D 18, the Company is exempted from separating these two portions if the liability component is no longer outstanding at the date of transition to Ind ASs. The Company has not issued compound financial instruments in the form of convertible debentures or preference shares.
- viii Designation of previously recognized financial instruments (Para D19-19C of Ind As 101): Ind AS 109 requires a financial liability (provided it meets certain criteria) to be designated as a financial liability through profit or loss. However, Para D19 permits the Company to designate at the date of transition to Ind ASs any financial liability through profit or loss provided the liability meets the criteria in para 4.2.2 of Ind AS 109 at that date. The Company has not designated any previously recognised financial instruments as financial liability through profit or loss.

31-Mar-17

- IX Fair value measurement of financial assets or financial liabilities at initial recognition (Para D20 of Ind AS 101): Ind AS 101.7 requires the Company to use the same accounting policies in its opening Ind AS Balance Sheet and throughout all periods presented in its first Ind AS financial statements. However, Para D 20 permits the Company to apply the requirements of fair value determination as per Para B5.1.2A(b) prospectively to transactions entered into on or after the date of transition to Ind ASs. The Company does not have financial assets or liabilities measured at fair value.
- X Decommissioning liabilities included in the cost of property, plant & equipment (Para D21 & 21A of Ind AS 101): Appendix A to Ind AS 16 requires the Company to make specified changes in a decommissioning, restoration or similar liability and add or deduct it from the cost of the asset to which it relates and to depreciate the adjusted amount of the asset prospectively over its remaining useful life. However, Para D21 & 21A exempt the Company from compliance with these requirements for changes in these liabilities that occurred before the date of transition to Ind ASs. The Company does not have any obligation to dismantle, remove and restore items of property, plant & equipment.
- xi Service concession arrangements referred to in Appendix C of Ind AS 115 (Para D22 of Ind AS 101): Appendix A to Ind AS 11 applies to service concession arrangements in infrastructure for public services traditionally constructed, operated and maintained by the public sector and financed through public budget appropriation. The Company has not entered into any such service concession arrangements.
- xii Borrowing costs (Para D23 of Ind AS 101): Ind AS 23 requires the Company to capitalize certain borrowing costs. However, Para D 23 permits the Company not to capitalize the borrowing costs incurred before the date of transition to Ind ASs. The Company has always followed AS 16 and hence the exemption under Ind AS 23 is not relevant.
- xiii Extinguishing financial liabilities with equity instruments (Para D25 of Ind AS 101): Appendix E of Ind AS 109 deals with extinguishing financial liabilities with equity instruments. Para D 25 permits the Company to apply Appendix E from the date of transition to Ind ASs. The Company has no obligations to extinguish financial liabilities with equity instruments.
- xiv Severe hyperinflation (Paras D26 to D30 of Ind AS 101): Ind AS 29 deals with translation of financial statements in which the functional currency is the currency of a hyperinflationary economy. The functional currency for the financial statements of the Company is INR which is not the currency of a hyperinflationary economy.
- xv Joint arrangements (Paras D31 to D31AL of Ind AS 101): Ind AS 111 deals with transition for proportionate consolidation to equity method in the case of joint ventures and transition from the equity method to proportionate consolidation in the case of joint operations. The Company does not have joint arrangements in the form of joint ventures or joint operations.
- xvi Stripping costs in the production phase of a surface mine (Para D 32 of Ind A 101): Appendix B of Ind AS 16 deals with stripping costs in the production phase of a surface mine. Para D32 permits the Company to apply Appendix B from the date of transition to Ind ASs. The Company does not own or operate any mines.
- xvii Designation of contracts to buy or sell a non-financial item as measured through profit or loss (Para D33 of Ind AS 101): Ind AS 109 permits the Company to designate at inception some contracts to buy or sell non-financial items as measured through profit or loss. However, Para D33 permits the Company to so designate, at the date of transition to Ind ASs contracts that already exist on that date, if they meet the requirements of Para 2.5 of Ind AS 109 at that date. The Company has not entered into any such contract before the date of transition to Ind ASs.
- xviii Revenue from contracts with customers (Para D34-35 of Ind AS 101): Para D34-35 of IFRS 101 refer to Ind AS 115 (not yet notified) which deals with recognition of revenue from contracts with customers. However, the Company recognises revenue in accordance with The Guidance Note issued in May 2016 by the Institute of Chartered Accountants of India as stated in the foot-note 1 to Para 1 of Ind AS 18

31-Mar-17

- xix Non-current assets held for sale and discontinued operations (Para D 35AA of Ind As 101): Ind AS 105 requires the Company to classify separately non-current assets held for sale or distribution to owners or for discontinued operations and carry them at the lower of the carrying cost and fair value less costs to sell at the date of classification. Para D35AA permits the Company to value such assets at the lower of the carrying cost and fair value less costs to sell at the date of transition to Ind ASs. The Company does not hold any non-current assets for sale and discontinued operations
- xx Business combinations and goodwill (Ind AS 101 Appendix C): The Company has elected to apply Ind AS 103 Accounting for Business Combinations prospectively from 1 April 2015. As such, the Indian GAAP carrying amounts of assets and liabilities acquired in business combinations, that are required to be recognised under Ind AS 103, is their deemed cost at the date of the acquisition. These balances relating to business combinations entered into before that date, including goodwill, have been carried forward with minimal adjustment. The same first time adoption exemption is also used for associates and joint ventures.

The Company has recognised all assets acquired and liabilities assumed in past business combinations. The Company did not derecognise or exclude any previously recognised amounts as a result of Ind AS recognition requirements.

As a first-time adopter, the Company has used the exemption in Ind AS 101 from having to apply Ind AS 103 retrospectively. As required by Ind AS 101, the Company has tested goodwill for impairment in accordance with Ind AS 36 at the date of transition to Ind AS (Ind AS 101.C4(g)(ii)). The goodwill impairment test and the recognition of any additional impairment is based on conditions existing at the date of transition to Ind AS. However, the Company has not made any further adjustments to the carrying amount of goodwill at the date of transition to Ind AS, except for the adjustments in Ind AS 101.C4(g) related to the goodwill impairment test or certain reclassifications of intangible assets. Accordingly, the Company has not reversed any previous GAAP goodwill impairment.

Ind AS 103 provides a very specific definition of a business combination. Therefore, it is possible that under Indian GAAP, transactions that are not business combinations (e.g., asset acquisitions) may have been accounted for as if they were business combinations. A first-time adopter will need to restate any transactions that it accounted for as a business combination under Indian GAAP, but which are not business combinations under Ind AS. However, the Company has not entered into any such transactions which require restatement.

#### 2.08 Ind AS 2 - Inventories

- i Inventories are valued at the lower of cost and net realisable value.
- ii Costs incurred in construction of each project are accounted for as follows:
  - a Construction materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
  - b Finished tenements and work in progress: cost includes cost of direct materials and labour and a proportion of overheads based on the normal operating capacity. Cost is determined on first in, first out basis.
  - c Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- iii Initial cost of inventories includes the transfer of gains and losses on qualifying cash flow hedges, recognised in OCI, in respect of the purchases of raw materials.
- iv Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

31-Mar-17

#### 2.09 Ind AS 7 - Cash and cash equivalents

- i Ind AS 7.18 allows entities to report cash flows from operating activities using either direct method or indirect method. The regulation 34(2)(c) of Chapter IV of Securities & Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015, requires listed companies to present cash flow from operating activities only under indirect method. The Company presents its cash flows using indirect method.
- ii Certain working capital adjustments and other adjustments included in the accompanying statement of cash flows reflect the change in balances between 31/03/2017 and 31/03/2016.
- iii Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

#### 2.10 Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The Company's Profit & Loss Statement presents profit / loss from ordinary activities. The extraordinary or exceptional items or changes in accounting estimates and policies during the year under review are disclosed separately as per Ind AS 8.

#### 2.11 Ind AS 10 - Events after Reporting period

- i These financial statements consider appropriately the impact of events which occur after the reporting period but before the financial statements are approved and which have an effect on the balance sheet and profit and loss statement.
- ii The Company recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.
- iii Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.
- iv Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

#### 2.12 Ind AS 12 - Income taxes

- i Tax expense comprises current and deferred tax.
- ii Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.
- iii Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. Current income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss. Current income tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction outside profit or loss (either in other comprehensive income or directly in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.
- iv Deferred tax assets and liabilities are recognized for future tax consequences attributable to the temporary differences between taxable income and accounting income that are capable of reversal in one or more subsequent periods and are measured using tax rates enacted or substantively enacted as at the reporting date. Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss. Deferred tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction outside profit or loss (either in other comprehensive income or directly in equity).

- v Deferred tax liabilities are recognized for all taxable temporary differences, except:
  - a When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
  - b In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future
  - c In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised
- vi Deferred tax assets are recognized for deductible temporary differences only to the extent that there is reasonable probability that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual probability supported by convincing evidence that they can be realized against future taxable profits.
- vii In the situations where the company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognized in the year in which the temporary differences originate. However, the company restricts recognition of deferred tax assets to the extent that it has become reasonably probable or virtually probable, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.
- viii At each reporting date, the company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably probable or virtually probable, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.
- ix The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably probable or virtually probable, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably probable or virtually probable, as the case may be, that sufficient future taxable income will be available
- x Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to setoff current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.
- xi Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The company recognizes MAT credit available for a particular assessment year as an asset only after the assessment for that year is complete and such credit is finally quantified and only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement" under the head "Current Assets". The company reviews the "MAT credit entitlement" asset at each reporting date and writes down its carrying amount to the extent such credit is set-off u/s 115JAA or to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

31-Mar-17

xii Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in profit or loss.

Sales/ value added taxes paid on acquisition of assets or on incurring expenses

- xiii Expenses and assets are recognised net of the amount of sales/ value added taxes paid, except:
  - ▶ When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
  - ▶ When receivables and payables are stated with the amount of tax included
- xiv The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

# 2.13 Ind AS 16 - Property Plant and Equipment

- i Under the previous GAAP (Indian GAAP), PPE were carried in the balance sheet at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. In exercise of the option vested in the Company as per Para 29 of Ind AS 16, the Company has chosen the cost model as per Para 30 of Ind AS 16 for all items of PPE. Accordingly, the Company has not revalued the PPE at 1st April 2015.
- ii Under the Ind AS compliant Schedule III, land and building are presented as two separate classes of PPE. In contrast, paragraph 37 of Ind AS 16 appears to be having flexibility to treat land and building either as one class or as two separate classes. It also states that a class of PPE is a grouping of assets of a similar nature and use in an entity's operations. However, in accordance with Para 58 of Ind AS 16 and based on the nature, characteristics and risks of land and building, the management has determined that they constitute two separate classes of property for presentation in the financial statements.
- iii The Company has recognized items of property, plant & equipment (PPE) in accordance with Ind AS 16.07 only if it is probable that future economic benefits associated with the item will flow to the entity and if the cost of acquisition or construction of the items of PPE can be measured reliably in accordance with Ind AS 16.10-16.27.
- iv The cost of PPE items includes the cost of replacing part of the plant and equipment if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.
- v When a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied.
- vi The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.
- vii As required by Schedule II to the Companies Act, 2013, the management estimate every year, on the basis of technical assessment, the useful life and residual value of items of PPE, if the useful life / residual value are different from that specified in Schedule II
- viii Depreciation is calculated on a straight-line basis over the estimated useful life of the assets in accordance with Schedule II to the Companies Act, 2013.
- ix An item of PPE and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

#### 2.14 Ind AS 17 - Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

31-Mar-17

- ii A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially to the lessee all the risks and rewards incidental to ownership is classified as a finance lease. A lease in which the lessor does not transfer substantially to the lessee all the risks and rewards of ownership of an asset is classified as an operating lease.
- iii Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.
- iv A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

#### v Where the Company is the lessee,

- a finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments.
- b lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability.
- c finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs.
- d contingent rentals are recognised as expenses in the periods in which they are incurred.
- e operating lease payments are not recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term because the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

#### vi Where the Company is the lessor,

- a finance lease income is not allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease because the Company does not, having regard to the totality of facts & circumstances, follow the policy of straight-lining of lease rent income.
- b rental income from operating lease is recognised over the term of the relevant lease.
- c contingent rents are recognised as revenue in the period in which they are earned.
- d amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases.
- e In accordance with Ind AS 17 lease payments under an operating lease are not recognised as an expense / income on a straight-line basis over the lease term because the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

## 2.15 Ind AS 18 - Revenue

- i Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.
- ii Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

31-Mar-17

- The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.
- iv Sales tax / value added tax (VAT) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.
- v The specific recognition criteria described below must also be met before revenue is recognised.
  - a Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.
  - b Revenue from incomplete projects is recognised in accordance with the Guidance Note on Accounting for Real Estate Transactions issued by the Institute of Chartered Accountants of India as notified by Companies (Indian Accounting Standards) Amendment) Rules, 2016, as per Indian Accounting Standard (Ind AS) 18,

Revenue from incomplete projects is not recognized unless the outcome of a real estate project can be estimated reliably. Revenue is recognised under the percentage completion method only when the events in (a) to (d) below are completed.

- 1 All critical approvals necessary for commencement of the project have been obtained. These include, wherever applicable:
  - (i) Environmental and other clearances.
  - (ii) Approval of plans, designs, etc.
  - (iii) Title to land or other rights to development/ construction.
  - (iv) Change in land use.
- When the stage of completion of the project reaches a reasonable level of development. A reasonable level of development is not achieved if the expenditure incurred on construction and development costs is less than 25 % of the construction and
- 3 At least 25% of the saleable project area is secured by contracts or agreements with buyers.
- 4 At least 10 % of the contract consideration as per the agreements of sale or any other legally enforceable documents are realised at the reporting date in respect of each of the contracts and it is reasonable to expect that the parties to such contracts will comply with the payment terms as defined in the contracts.
- 5 The completion of the revenue recognition process is usually identified when the following conditions are satisfied:
  - (i) the entity has transferred to the buyer the significant risks and rewards of ownership of the real estate:
  - (ii) the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the real estate sold;
  - (iii) the amount of revenue can be measured reliably;
  - (iv) it is probable that the economic benefits associated with the transaction will flow to the entity; and
  - (v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.
- Where transfer of legal title is a condition precedent to the buyer taking on the significant risks and rewards of ownership and accepting significant completion of the seller's obligation, revenue is not be recognised till such time legal title is validly transferred to the buyer.
- c Revenue in the form of interest on moneys advanced by the Company is recognized only if recovery of both the interest and principal is certain or if required by the provisions of Section 186(7) of the Companies Act, 2013.

31-Mar-17

- d Revenue in the form of dividend is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.
- e Rental income arising from operating leases on investment properties is **not** accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature because the Company has determined that it does not meet criteria for recognition of lease rental income on straight-line basis i.e.
  - ▶ Another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished, even if the payments to the lessors are not on that basis, or
  - ▶ The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.
- f Revenues from maintenance contracts are recognized pro-rata over the period of the contract as and when services are rendered. The company collects service tax on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue.
- g Plant and equipment received from customers: A corresponding credit to deferred revenue is made. The Company may agree to deliver one or more services in exchange for the transferred item of property, plant and equipment, such as connecting the customer to a network, providing the customer with ongoing access to a supply of goods or services, or both. The Company identifies the separately identifiable services included in the agreement.
  - ▶ If only one service is identified, the Company recognises revenue when the service is performed.
  - ▶ If an ongoing service is identified as part of the agreement, the period over which revenue is recognised for that service is generally determined by the terms of the agreement with the customer. If the agreement does not specify a period, the revenue is recognised over a period no longer than the useful life of the transferred asset used to provide the ongoing service.
  - ▶ If more than one separately identifiable service is identified, the fair value of the total consideration received or receivable for the agreement will be allocated to each service and the recognition criteria of Ind AS 18 are then applied to each service.

However, during the year under review, the Company has not received any plant & equipment from its customers.

vi In the case of composite contracts, the fair consideration attributable to each component of the contract is identified and recorded as revenue. However, the Company has not entered into composite contracts during the year under review.

#### 2.16 Ind AS 19 - Employee Benefits

- i The Company is required to assess the nature of its employee benefits and make the relevant disclosures
- ii Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.
- iii The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund managed by the Life Insurance Corporation of India. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. The Company has made provision for the entire amount calculated by LIC in respect of its liability under the aforesaid plan but has not paid the entire amount.

31-Mar-17

iv The Company is also required to state its policy for termination benefits, employee benefit reimbursements and benefit risk sharing. Since these are not applicable to the Company, the disclosures related to such benefits have not been made.

#### 2.17 Ind AS 20 - Government grants

- i Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.
- ii When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.
- iii When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.
- iv When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments.
- When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.
- vi The Company has chosen to present grants related to an expense item as other income in the statement of profit and loss.

However, the Company has not received any grants from the Government during the year under review.

#### 2.18 Ind AS 21 - Effects of changes in Foreign Exchange Rates

- i The Company's standalone financial statements are presented in INR, which is the company's functional currency.
- Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.
- iii Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.
- iv Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:
  - a Exchange differences arising on monetary items that form part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate.
  - b Exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of a foreign operation are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.
  - c Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.
- v Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

31-Mar-17

vi The Company considered the two options available under Indian GAAP, AS 11 -The Effects of changes in Foreign Exchange Rates with regard to accounting for exchange differences arising on long-term (i.e. having a term of 12 months or more at the date of its origination) foreign currency monetary items and decided to recognize such exchange differences as income or expense in profit or loss in the period in which they arise. The Company continues this accounting practice because it is in compliance with Ind AS 21.

# 2.19 Ind AS 23 - Borrowing Costs

- i Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset.
- ii A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale.
- iii Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. All other borrowing costs are recognized as an expense in the period in which those are incurred.

# 2.20 Ind AS 24 - Related party and Disclosures

- i The Company has identified related parties as required by Ind AS 24.
- ii In compliance with Ind AS 24, the Company has recognized independent directors & investor directors as key management personnel.

# 2.21 Ind AS 27 & Ind AS 110 - Consolidated and separate Financial Statements

- i As required by Section 129(3) of the Companies Act, 2013, the Company has prepared consolidated financial statements which comprise the financial statements of the Company and its subsidiaries as at 31 March 2017.
- ii The financial statements of all the subsidiaries of the Company for the year ended 31st March 2017 are the first financial statements prepared in accordance with Ind ASs.
- iii The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.
- iv Consolidated financial statements of the Company and its Subsidiaries have been prepared by combining on a line-to-line basis by adding together the book values of like items of assets, liabilities, incomes and expenses after fully eliminating intra-group balances, intra-group transactions and unrealised profits and losses.
- v The Company has identified subsidiaries for the purpose of consolidation having regard to extent of control over other entities, whether or not the Company has invested in the capital of such entities.

# 2.22 Ind AS 28 & Ind AS 111 - Investment in associates and joint ventures -

- i An associate is an entity over which the Company has significant influence.
- ii Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.
- iii A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.
- iv Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.
- v The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.
  - The financial statements of the associate or joint venture are prepared for the same reporting period as the Company. When necessary, adjustments are made to bring the accounting policies in line with those of the Company.

31-Mar-17

- vi The Company's investments in its associate and joint venture are accounted for using the equity method.
- vii Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Company's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

After application of the equity method, the Company determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Company determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Company calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

- viii The statement of profit and loss reflects the Company's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Company's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Company recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Company and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.
- ix If an entity's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Company's net investment in the associate or joint venture), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.
- x The aggregate of the Company's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss.
- xi Upon loss of significant influence over the associate or joint control over the joint venture, the Company measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss
- xii The Company's interest in joint operations as per Ind AS 111.20 is recognised in the form of
  - Assets, including its share of any assets held jointly
  - Liabilities, including its share of any liabilities incurred jointly
  - Revenue from the sale of its share of the output arising from the joint operation
  - ▶ Share of the revenue from the sale of the output by the joint operation
  - Expenses, including its share of any expenses incurred jointly
- xiii During the financial years under review, the Company did not have any interest in any associate or joint venture.

## 2.23 Ind AS 32, Ind AS 107 & Ind AS 109 - Financial Instruments : Presentation & Disclosures:

- i A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
- ii Initial recognition and measurement of financial assets: All financial assets are recognised initially at amortized cost plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

31-Mar-17

- iii Subsequent measurement of financial assets: For purposes of subsequent measurement, financial assets are classified in four categories:
  - a Debt instruments at amortised cost
  - b ▶ Debt instruments at fair value through other comprehensive income (FVTOCI)
  - c ▶ Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
  - d ► Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- iv Debt instruments at amortised cost: A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
  - a ► The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
  - b Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

- v Debt instrument at FVTOCI: A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
  - a ► The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
  - b The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the Effective Interest Rate (EIR) method.

The Company does not have any financial asset in the form of debt instruments at FVTOCI.

vi **Debt instrument at FVTPL**: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

The Company has not designated any debt instrument as at FVTPL.

vii Equity investments at FVTPL: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

The Company does not have any financial asset in the form of equity instruments at FVTPL.

31-Mar-17

viii Equity investments at FVTOCI: For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

The Company does not have any financial asset in the form of equity instruments at FVTOCI.

- ix Derecognition: A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's standalone balance sheet) when:
  - ▶ The rights to receive cash flows from the asset have expired, or
  - ▶ The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
  - (i) the Company has transferred substantially all the risks and rewards of the asset, or
  - (ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

The Company has not derecognized any financial asset.

- x Impairment of financial assets: In accordance with Ind AS 109, the Company applies expected
  - Financial assets that are debt instruments, and are measured at amortised cost e.g., loans,
  - ► Financial assets that are debt instruments and are measured as at FVTOCI
  - ► Lease receivables under Ind AS 17
  - ▶ Trade receivables or any contractual right to receive cash or another financial asset that result
  - ▶ Loan commitments which are not measured as at FVTPL
  - ▶ Financial guarantee contracts which are not measured as at FVTPL

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- ► Trade receivables or contract revenue receivables; and
- ▶ All lease receivables resulting from transactions within the scope of Ind AS 17

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

31-Mar-17

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- ▶ All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- ▶ Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms
- ▶ Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- ▶ Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability.
- ▶ Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase / origination. The Company has made adequate provision for doubtful debts and has not made any provision for ECL.

#### xi Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract — with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a nonfinancial variable that the variable is not specific to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the Company does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

The Company's financial instruments are not derivative instruments.

- xi Initial recognition and measurement of financial liabilities: Financial liabilities are classified, at initial recognition
  - a financial liabilities at fair value through profit or loss,
  - b loans and borrowings,

- c ▶ payables
- d bederivatives designated as hedging instruments in an effective hedge

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts but not derivative financial instruments.

- xiii Subsequent measurement of financial liabilities: The measurement of financial liabilities depends on their classification, as described below:
  - Financial liabilities at fair value through profit or loss: Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

The Company has not designated any financial liability as at fair value through profit and loss. Non-current liabilities are not carried at their present value.

- b Loans and borrowings: This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised.
  - Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs. This category generally applies to borrowings.
- xiv Financial guarantee contracts: Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.
- xv Derecognition: A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

31-Mar-17

xvi Reclassification of financial assets: The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original	Revised classification	Accounting treatment
Amortis ed cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in P&L.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortis ed cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

The Company has not reclassified any financial instrument.

xvii Offsetting of financial instruments: Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

The Company has not offset any financial asset and financial liability. xviii Derivative financial instruments and hedge accounting - Ind AS 109 & 32

Initial recognition and subsequent measurement: Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The purchase contracts that meet the definition of a derivative under Ind AS 109 are recognised in the statement of profit and loss. Commodity contracts that are entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the Company's expected purchase, sale or usage requirements are held at cost.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

31-Mar-17

- ► Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment
- ▶ Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment

#### ► Hedges of a net investment in a foreign operation

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

#### i Fair value hedges

The change in the fair value of a hedging instrument is recognised in the statement of profit and loss as finance costs. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss as finance costs.

For fair value hedges relating to items carried at amortised cost, any adjustment to carrying value is amortised through profit or loss over the remaining term of the bedge using the FIR method. FIR amortisation may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

if the nedged item is derecognised, the unamortised fair value is recognised immediately in profit or loss. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in profit and loss.

The Company does not have interest rate swaps that are used as a hedge for the exposure of changes in the fair value fixed rate secured loans.

### ii Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss.

Amounts recognised as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised as OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

31-Mar-17

The Company does not use forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments, as well as forward commodity contracts for its exposure to volatility in the commodity prices. The ineffective portion relating to foreign currency contracts is recognised in finance costs.

#### iii Hedges of a net investment

Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognised as OCI while any gains or losses relating to the ineffective portion are recognised in the statement of profit or loss. On disposal of the foreign operation, the cumulative value of any such gains or losses recorded in equity is reclassified to the statement of profit or loss (as a reclassification adjustment).

The Company does not use a loan as a hedge of its exposure to foreign exchange risk on its investments in foreign subsidiaries.

The Company does not use derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively.

xix Loan processing fees: As required by Ind AS 109, loan processing fees are amortized over the period of the respective loan.

#### 2.24 Ind AS 33 - Earning Per share

- i Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.
- ii For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

#### 2.25 Ind AS 36 - Impairment of Asset

- i The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the recoverable amount of the asset. Such recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.
- ii In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

31-Mar-17

- iii The company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.
- iv Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation surplus.
- v After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
- vi For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.
- vii Goodwill is tested for impairment annually as at 31st March and when circumstances indicate that the carrying value may be impaired.
- viii Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or Company of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill are not reversed in future periods.
- ix Intangible assets with indefinite useful lives are tested for impairment annually as at 31st March at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.
- x Ind AS 36.96 permits the annual impairment test for a CGU to which goodwill has been allocated to be performed at any time during the year, provided it is at the same time each year. Different goodwill and intangible assets may be tested at different times.

# 2.26 Ind AS 37 - Provisions, Contingent Liabilities and Contingent Asset

- i Provisions are recognised when,
  - a the Company has a present obligation (legal or constructive) as a result of a past event
  - b it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and
  - c a reliable estimate can be made of the amount of the obligation.
- ii When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.
- iii The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.
- iv If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

31-Mar-17

- v Provisions for warranty-related costs are recognised when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.
- vi Restructuring provisions are recognised only when the Company has a constructive obligation, which is when a detailed formal plan identifies the business or part of the business concerned, the location and number of employees affected, a detailed estimate of the associated costs, and an appropriate timeline, and the employees affected have been notified of the plan's main features.
- vii The Company records a provision, if any, for decommissioning costs of a manufacturing facility / construction site. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognised in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.
- viii A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions above or the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with the requirements for revenue recognition

# 2.27 Ind AS 38 - Intangible Asset

- i As required by Ind AS 38.72, the Company has chosen the cost model as per Ind AS 38.74 for measurement of intangible assets. The Company has measured the cost of acquisition or construction of intangible assets in accordance with Ind AS 38.24-38.71.
- ii Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition.
- iii Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.
- iv Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.
- The useful lives of intangible assets are assessed as either finite or indefinite.
- vi Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.
- vii The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.
- viii The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.
- ix Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.
- x Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

# 2.28 Ind AS 38 - Research and development costs

- i Research costs are expensed as incurred.
- ii Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

#### D. S. Kulkarni Developers Ltd.

#### CIN: L45201PN1991PLC063340

#### Notes to the Standalone Financial Statements for the year ended

31-Mar-17

- ► The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- ▶ How the asset will generate future economic benefits
- ▶ The availability of resources to complete the asset
- ▶ The ability to measure reliably the expenditure during development
- iii During the period of development, the asset is tested for impairment annually.
- iv Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses.
- v Amortisation of the asset begins when development is complete and the asset is available for use.
- vi It is amortised over the period of expected future benefit.
- vii Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

#### 2.29 Ind AS 38 - Patents and licences

- i The Company makes upfront payments to purchase patents and licences. The patents are granted for a certain period by the relevant government agency with the option of renewal at the end of this period.
- ii Licences for the use of intellectual property are granted for certain periods depending on the specific licences. The licences may be renewed at little or no cost to the Company. As a result, those licences are assessed as having an indefinite useful life.
- iii A summary of the policies applied to the Company's intangible assets is, as follows:

Intangible assets	Useful lives	Amortisation method used	Internally generated or acquired
Licences Patents	Indefinite Finite	No amortisation Amortised on a straight-line basis	Acquired Acquired
		over the period of the patent	

Developmen Finite t costs

Amortised on a straight-line basis Internally generated

over the period of expected future sales from the related project

#### 2.30 Ind AS 40 - Investment Property

- i Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.
- ii The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.
- iii The Company depreciates building component of investment property over 30 years from the date of original purchase.
- iv The Company, based on technical assessment made by technical expert and management estimate, depreciates the building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.
- v Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

31-Mar-17

- vi Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.
- vii The Company has elected to continue with the carrying value for all of its investment property as recognised in its Indian GAAP financial statements as at the transition date, viz., 1st April 2015.

## 2.31 Ind AS 105 - Non-current assets held for sale & discontinued operations:

- i The Company classifies non-current assets or disposal undertaking as "held for sale / distribution to owners" if their carrying amounts are expected to be recovered principally through a sale / distribution rather than through continuing use.
- ii The criteria for held for sale/ distribution classification is regarded met only when
  - a the assets or disposal undertaking is available for immediate sale / distribution in its present condition, subject only to terms that are usual and customary for sales / distribution of such assets (or disposal undertakings),
  - b its sale/ distribution is highly probable;
  - c it will genuinely be sold, not abandoned.
  - d actions required to complete the sale / distribution indicate that it is unlikely that significant changes to the sale / distribution will be made or that the decision to sell / distribute will be withdrawn.
  - e the appropriate level of management is committed to a plan to sell the asset (or disposal undertaking),
  - f an active programme to locate a buyer and complete the plan has been initiated (if applicable),
  - g the asset (or disposal undertaking) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
  - j the sale is expected to qualify for recognition as a completed sale within one year from the date of classification,
- iii For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance.
- iv Non-current assets held for sale / for distribution to owners and disposal undertakings are measured at the lower of their carrying amount and the fair value less costs to sell/ distribute. Assets and liabilities classified as held for sale /distribution are presented separately in the balance sheet.
- v Property, plant and equipment and intangible assets once classified as held for sale / distribution to owners are not depreciated or amortised.
- vi A disposal undertaking qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and
  - represents a separate major line of business or geographical area of operations,
  - ▶ is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or
  - ▶ is a subsidiary acquired exclusively with a view to resale
- vii Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

The Company does not hold any non-current assets for sale or for discontinued operations.

#### 2.32 Ind AS 113 - Fair Value Measurement

- i The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.
- ii Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

31-Mar-17

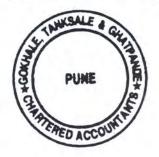

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability
- iii The principal or the most advantageous market must be accessible by the Company.
- iv The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.
- v A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.
- vi The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- vii All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:
  - ▶ Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
  - ▶ Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
  - ▶ Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
- viii For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.
- The Company's Valuation Committee determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations. The Valuation Committee comprises of the head of the investment properties segment, heads of the Company's internal mergers and acquisitions team, the head of the risk management department, financial controllers and chief finance officer.
- x External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the Valuation Committee after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Valuers are normally rotated every three years. The Valuation Committee decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.
- xi At each reporting date, the Valuation Committee analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Valuation Committee verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.
- xiii The Valuation Committee, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.
- xiii On an interim basis, the Valuation Committee and the Company's external valuers present the valuation results to the Audit Committee and the Company's independent auditors. This includes a discussion of the major assumptions used in the valuations.
- xiv For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.
- xv The Company has not elected to apply the portfolio exception under Ind AS 113.48. If an entity makes an accounting policy decision to use the exception, this fact is required to be disclosed, as per Ind AS 113.96.
